

EXHIBITION » Lisboa Story Centre

Lisboa Story Centre is a place dedicated to the history of the city which combines knowledge and technology. Throughout 60 minutes, one can travel in time through 20 centuries of Lisbon's memories, since its foundation until nowadays, that intersect with the memories of the country and of the world.

The exhibition has multi-media resources and an immersive scenography (allusion to spaces, replicas of vessels, mannequins dressed in old costumes, iconography, films, sounds and smells).

The visit is guided by an audio guide available in 9 languages:
Portuguese (with a version for children), Spanish, English, French, Italian, German, Russian, Mandarin and Japanese (already included in the ticket price).

BRIEF NOTE OF THE MONTH

The Ribeira das Naus recovers the connection between the city and its river as well as the meeting between the locals and people from other places. Although different from what they used to be, memories are still being grown.

Until September, people can pass by the new river front and, particularly, by the beach that may have existed there before the earthquake of 1755.

The green slopes remind us the ramps that allowed the boats to get back to the water; the Dry Dock is also showed – a place where boats were being repaired since the 17th century; and, right next to it, we can see the Doca da Caldeira and the Terreiro do Paço square that we can get there by crossing a wooden bridge.
